--	---------------------

**PLEASE NOTE:**

There are many different types of drugs that have been reported to cause problems in Shelties. The following drugs have been known to cause problems and are **NOT** to be given to Shelties. **Ivermectin** (antiparasitic agent) • **Imodium®**; over-the-counter antidiarrheal agent) • **Digoxin** (heart drug) • **Doxorubicin** (anticancer agent) • **Vincristine** (anticancer agent) • **Vinblastine** (anticancer agent) • **Cyclosporin** (immunosuppressive agent).

For additional information about potential problem drugs and a test available to test drug sensitivity in Shelties, visit this website:<http://www.vetmed.wsu.edu/depts-VCPL>.

A copy of this health information record should be given to your veterinarian and kept in your dog's records.
